Response to Amendment

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 25-37 have been canceled. (As per the election without traverse)

Allowable Subject Matter

Claims 1-24 are allowed.

The following is an examiner's statement of reasons for allowance: Applicants' claimed invention is presented in independent claims 1, 9 and 17 are directed to a method for optimizing a set of cardiac pacing parameters. An iterative process is performed in which each of the N pacing parameters under consideration are modified, either individually or as a set, and cardiac performance is measured as the process updates or changes the pacing parameters to reflect the measured cardiac performance and thus at least moves the N parameter set of pacing parameters in the direction of an optimum pacing parameter set. (N is an integer greater than 1). The prior art shows similar features but is concerned with timing of events. The prior art does not show

determining a cardiac performance associated with the set of N test pacing parameters and updating the ith increment value based on the cardiac performance associated with the ith set of test pacing parameters, and updating the current set of N pacing parameters based on the updated increment values determined in step.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
